HOSPITAL PROBE GROWS RACY

FUGITIVE CONVICTS SURRENDERED TODAY AT BEER TAVERN

MANN AND NELSON ARRESTED AT GOLDSMITH; LEFT CASH AT MEXIA

ODESSA, Jan. 25.—(P)—J. W. Mann and Andrew Nelson, fugitive convicts chased for ten days by hundreds of West Texas officers, surrendered meekly to Sheriff Reeder Webb at Goldsmith early today as he surprised them in a beer tavern.

Robert Lacy Cash, third member of the trio who escaped from a Texas prison guard at Buffalo January 13, was not with them. The party split at Mexia the night of the escape, Mann and Nelson said.

For three days Ector county officers had been watching for a maroon sedan (Ford) in which the fugitives were traveling. Late last night the automobile was spotted at the tavern in the oil field town 18 miles northwest of here.

The posse headed by Webb and Hugh Ratliff, Odessa chief of police, was summoned and Webb and two other officers entered the front door of the tavern with drawn pistols while other members watched the back door.

There were half a dozen men at the bar, among them Mann and Nelson. Their hands shot over their heads at Webb's command and there was no struggle as they were taken into custody. Nelson was armed with a .33 calibre pistol, but Mann was unarmed.

The convicts were brought to the Ector county jail here to await transfer to the state penitentiary. They had little to say except to deny they participated in a gun fight with the nightwatchman at Stanton, as reported, several days ago. They said they had not been at Stanton, but had been staying at a hotel in Goldsmith for several days.

See FUGITIVES, Page 8

BLIZZARD CONTINUES HOLD CORSICANA AREA IN FREEZING GRIP

The blizzard which struck here early last Thursday morning continued to hold Corsicana and this entire section in its grip. For twelve successive nights sub-freezing temperatures have been recorded here and the last eight of these the minimum temperature has been below 20. Starting last Thursday night, the minimum temperatures have ranged from a low of 6 degrees above zero to 18 above. This was capped with a seven inch snow Monday which has melted very little except on the streets where travel is heavy.

No relief from the cold is in sight. The weather bureau prediction for this section for tonight and Friday is considerable cloudiness, light snow, colder, temperature to 14 degrees.

The snow melted sufficiently on the streets and highways for traffic to be resumed. A light flurry of snow Thursday morning threatened to cover the streets again.

Pipes have been frozen in all

TERMINATION OF AMERICAN AND JAPANESE TRADE TREATY TO HAVE EFFECT ON OPERATIONS IN CHINA

By DEWITT MACKENZIE
Washington tomorrow will mark the termination of the American-Japanese commercial treaty—an end likely to create bigger history than did any other event in this past, which lies amidst harsh words.

Over in the busy Chinese port of Tientsin, former Premier Wang Ching-Wei is straining every nerve to complete a new commercial treaty designed to rule China's 450,000,000—with the blessing of Japan.

Offhand it might seem farfetched to suggest a connection between the two events. Yet they represent a cause and effect in an issue which may determine the outcome of Japan's conquest of China and effort to establish politico-economic domination of eastern Asia. It's this way:

From Japan's standpoint an embargo might spell disaster. She might lose a customer who bought

TEXAS EXPERIENCES ITS MOST TENACIOUS COLD WAVE IN YEARS

EIGHT DAYS OF SUB-FREEZING TEMPERATURES GREATER PART OF THE STATE

By The Associated Press
The most tenacious cold wave in more than 40 years still held most of Texas in its grip Thursday and only in the Panhandle was there promise of warmer weather.

Light snows fell here and there over the state and temperatures held generally at the levels of the last eight days. In the Rio Grande Valley, however, there was a respite from freezing temperatures. Brownsville reported 45 degrees and rain. The party split at Mexia the night of the escape, Mann and Nelson said.

Along the coast around Corpus Christi freezing rain, sleet or snow was forecast with possible moderation Friday.

Houston's 51-year-old record for cold waves was equalled Thursday with a minimum of 25 the city recorded its eighth consecutive day of freezing weather matching the all-time record set in 1889. Another freeze was expected during the night.

San Antonio weather also matched the all-time record set 51 years ago when temperatures went below freezing.

With today's minimum of 12, a 41-year record was equalled in Fort Worth—eight consecutive days when temperatures were 16 or lower. The last such spell came in 1899. For Corpus Christi a record was established with the eight straight days of freezing or lower temperatures.

Colder places were Amarillo with two degrees and Lubbock with 6. Light snows fell at both cities Thursday night. San Angelo 13; Corsicana 14; twelfth consecutive night of below-freezing weather; Big Spring 11; Borger 5; Waco 16; Tyler 15; Brownwood 12; Gainesville 9; with light snow; Houston 25; San Antonio 28; Corpus Christi 32; Austin 21; Del Rio 32; Galveston 30; Palestine 17; El Paso 24.

Presidents Ball At Country Club January Thirtieth

Tickets were placed on sale Thursday for the President's Ball to be staged at the Corsicana Country Club the night of Tuesday, January 30, according to announcement. The dance will start at 9 p. m.

This dance is being arranged in connection with the annual affairs presented each year when funds are raised to aid in the fight on infantile paralysis. The price of the tickets here will be \$1.00 each. Half of the amount raised will be kept in Navarro county for use by local agencies assisting crippled children.

Committees will conduct an active ticket selling campaign and the tickets will also be available at downtown drug stores.

See MACKENZIE, Page 5

WEEKEND SHUTDOWNS BE ENDED EXCEPT IN EAST TEXAS FIELD

FEBRUARY ALLOWABLE INCREASED ABOVE BUREAU OF MINES ESTIMATE

AUSTIN, Jan. 25.—(P)—The railroad commission today issued a statewide order authorizing a net daily allowable of 1,390, 151 barrels in February, 18,751 more than recommended by the U. S. Bureau of Mines, and removing production holidays in all fields except East Texas.

The allowable at the beginning of next month exceeds by 40,016 the estimated net daily average on January 13. There were 13 non-producing days this month in a majority of the fields.

Chairman Lon A. Smith said the commission would make no changes in the February schedule except in emergency cases and to allow for new well completions for several months had been placing Texas production under the estimate of market demand of the Bureau of Mines with the result that last month by month had reduced its recommendations for production in this state.

February 1 allowables by districts were: Southwest Texas 223,400; Gulf coast 223,372; east central Texas 80,015; east Texas 404,480 (average net) west central Texas, 56,161; west Texas 196,656; north Texas 124,033; panhandle 80,031.

Smith said the February schedule actually would result in an estimated daily production of 15,236 barrels less than the bureau's average recommendations for the past three months because daily average underproduction for that period was 33,857 barrels.

The bureau announced the regulatory body had rejected a decision on a proposal for a general 20-acre spacing rule for new wells. The subject will be discussed this month, he said.

Coincident with the February schedule the commission announced an amendment to the marginal well exception rule, effective February 1.

In brief it restates the definition of marginal wells so that producers not actually marginal can be cut below the marginal limit.

The giant East Texas field will be shut down on all Sundays, Wednesdays and Saturdays in February, a total of 12 holidays. Thirteen shut-in days were prescribed this month.

The giant East Texas field will be shut down on all Sundays, Wednesdays and Saturdays in February, a total of 12 holidays. Thirteen shut-in days were prescribed this month.

Under Nazi pressure Rumania has been promised to increase oil deliveries to Germany from a normal 1,000,000 barrels to 1,500,000 tons at the rate of 130,000 tons a month plus additional shipments to make up for accrued non-deliveries.

To fulfill the agreement and speed oil sales and deliveries, King Carol issued a decree establishing state control of petroleum production and export.

Since approximately 80 per cent of Rumanian oil production is combined with coal, British, French and other foreign interests the allied governments fear their nationals may be forced to provide some of the German oil.

PRESIDENT FARM BUREAU FEDERATION BACKS TRADE PLANS

EDWARD O'NEAL DECLARES RECIPROCAL TRADE PACTS AID TO AGRICULTURE

WASHINGTON, Jan. 25.—(P)—Edward A. O'Neal, president of the American Farm Bureau Federation, urged continuance of the reciprocal trade program today on the ground that it has aided agriculture.

"Careful analysis fails to disclose any measurable injury to American agriculture," he said in a statement prepared for the house ways and means committee.

O'Neal opposed suggestions that senate ratification be required for trade agreements if the program is continued beyond its present expiration date in June.

"Senate ratification of trade agreements would mean a return to old system of log-rolling," he said. "We might as well repeat the law altogether, as have that."

The farm bureau federation, he explained, is supporting the agricultural adjustment program as well as the trade agreements plan. He said that the two programs "are not contradictory but actually dovetail together in working toward the objective of bringing parity to the American farmer."

DESPITE IMPROVED METHODS OF CONTROL COYOTE STILL MAJOR PROBLEM IN LIVESTOCK AREAS

CASPER, Wyo., Jan. 25.—(P)—Despite improved control methods, the shrewd, fleet coyote still is a major problem in the western livestock industry. D. D. Green, chief of the U. S. Biological Bureau's division of predatory and rodent control, said today.

Unlike other predators, the coyote thrives under conditions incident to livestock and agricultural expansion, Green said in an address prepared for delivery before the 75th annual convention of the National Wool Growers Association.

"So far as the wolf, bobcat, mountain lion and bear are concerned, the problem is local in character. The scalps and skins of more than a million coyotes have been accounted for through organized effort, but there still is a great deal yet to be learned about the coyote problem."

The three-day convention drew near a close, there were suggestions for through organized effort, but there still is a great deal yet to be learned about the coyote problem.

The act now covers the use of public domain for timber and recreational purposes, while the Taylor

PRESSURE AGAINST RUMANIA DUE OIL IS BEING WATCHED

STATE DEPARTMENT SEEKING GUARD AGAINST INJURY UNITED STATES INTERESTS

By LLOYD LEHRBAS
WASHINGTON, Jan. 25.—(P)—The allies' and Germany's nutcracker pressure on Rumania, over sale of oil to the Nazi army, has put the state department on guard against injury to American interests in the Balkan kingdom.

The United States government's attention was focused on the situation as the result of the allies' warning to Rumania that "grave consequences" would follow any attempt to compel British and French-controlled companies to deliver oil to "the enemy."

Any action by the state department would be taken only if the tussle between the allies and Germany over Rumanian oil embroiled the Romano-American oil company, one of the largest in Rumania with about \$6,400,000 invested in 98 wells with an annual production of 6,385,000 barrels.

Under Nazi pressure Rumania has been promised to increase oil deliveries to Germany from a normal 1,000,000 barrels to 1,500,000 tons at the rate of 130,000 tons a month plus additional shipments to make up for accrued non-deliveries.

To fulfill the agreement and speed oil sales and deliveries, King Carol issued a decree establishing state control of petroleum production and export.

Since approximately 80 per cent of Rumanian oil production is combined with coal, British, French and other foreign interests the allied governments fear their nationals may be forced to provide some of the German oil.

POLITICIANS SEE LEWIS ENDORSING SENATOR WHEELER

By D. HAROLD OLIVER
WASHINGTON, Jan. 25.—(P)—Politicians in Washington, headed by John L. Lewis' anti-third term statement, were ready to lay odds today that the CIO chief is thinking of endorsing Senator Wheeler of Montana for the democratic presidential nomination.

One report circulated in authoritative congressional circles was that Lewis has turned thumbs down on several different ticket combinations suggested at White House conferences.

At least one of these tickets, it was said, had Wheeler in second place—a nomination which the Montana has said it would not accept.

Wheeler will address the United Mine Workers convention at Columbus, Ohio, tomorrow night on the same platform from which Lewis last year predicted that a Roosevelt third term candidacy would go down to "ignominious defeat."

Democrats generally, while resenting Lewis' assertion that the Roosevelt administration had been unfaithful to labor, though the CIO head was flirting with a Wheeler nomination or at least was "out to bargain early" for a man of his type and to influence the party platform.

A few thought Lewis might be threatening to run himself if he failed to get his man nominated, while one Democrat predicted the labor leader would "kiss and make up" with Roosevelt before the national convention.

The house passed with little opposition a bill to provide money for naval armament and for internal revenue bureau tax refunds.

The deficiency bill as passed by the house, represented a \$1,882,400 cut in President Roosevelt's budget estimates.

RUSSIANS SUFFER HEAVY LOSSES AS ATTACKS REPULSED

HIT-SKIP TACTICS FINNISH SKIING SHARPSHOOTERS HOLDING SOVIETS

HELSINKI, Jan. 25.—(P)—Costly Russian attacks northeast of Lake Ladoga and the resumption of long-range shelling of Viipuri by Red army artillery were reported today by the Finnish high command's communiqué.

"Heavy losses" for the Red army were reported by the Finns to have resulted when the "especially heavy" attacks, continuing all day, were repulsed near Alttiojoki.

The Soviet forces "again lost several hundred killed" by the time the attacks were sent back this morning, the Finnish communiqué said, reporting additional success in repulsing enemy thrusts in the far north.

Suivvy weather prevented air activity over Finland yesterday "except for minor raids" on Kuusamo and the Aland Islands, on the sea route to Sweden across the Gulf of Bothnia.

A Finnish merchant ship was sunk in the raid. Hit-skip tactics of Finland's skiing sharpshooters are frustrating Soviet Russian mechanized units.

Excitement is growing in Helsinki, where the Finns made it an open secret that something "big" is brewing northeast of the lake.

Behind the brief Finnish communiqués telling of heavy fighting for the past three days in that sector, the Finns said there was this unofficial story:

Large Russian forces early in the war pushed northwest around Lake Ladoga in an effort to flank the Karelian Isthmus defenses, their two columns were smashed.

Another heavy drive was stopped at Kitee. Anxious to relieve the Kitee divisions before they could be cut to pieces in the manner of the 1939 and 44th divisions the Russians tried vainly to send troops across the frozen lake.

Then they sought to bring up reinforcements but the Finns stopped them.

Repeated Attacks Launched
In a more desperate effort, the Russians launched repeated attacks overland, but in the past few days they sent their troops back with heavy Russian losses.

Russian advances at Alttiojoki, farther north, also have been halted back.

At the meantime, with the skiing Finns playing them a deadly game of tag, the Russians in the neighborhood of Kitee are in an increasingly difficult situation and are eating the flesh of their horses.

That is the Finnish story. On the darker side for Finland is the wholesale bombing of communities in the line.

Here again individuals in pursuit of Russian bombers against squadrons of Russian bombers, the Finns counted one pilot killed with his airplane shot down.

The Soviet bombers dived over Finland again yesterday, sank the 1,133-ton Finnish merchant ship, Notung in the eastern Aland Islands, barely missed an unidentified German ship which had run aground nearby and attacked with machine guns a third ship, also unidentified.

HOUSE PASSED BILL TO PROVIDE MONEY FOR DEFICIENCIES

MEASURE RUSHED THROUGH AHEAD OF THE TREASURY-POSTOFFICE BILL

WASHINGTON, Jan. 25.—(P)—The house passed with little opposition a bill to provide money for naval armament and for internal revenue bureau tax refunds.

The deficiency bill as passed by the house, represented a \$1,882,400 cut in President Roosevelt's budget estimates.

No attempt was made on the floor to write into the deficiency measure a department of agriculture request for an additional \$1,400,000 for subsidizing cotton exports. The appropriations committee had stricken the item out.

WASHINGTON, Jan. 25.—(P)—Ohio has lost its battle for federal reimbursement of \$1,338,000 for the cost of having spent for old age assistance while under supervision by the Social Security Board.

Climaxing a short debate that brought republican charges of "politics" and "bureaucracy" the house voted late yesterday to uphold President Roosevelt's veto of a bill to repay the state.

The vote was 171 to override the veto and 153 to support it, but a two-thirds majority is necessary to reject the President's decision.

EXTREME COLD IS REPORTED CREATING PITIFUL SITUATION

MOST OF UNITED STATES SUFFERS FROM COLD AND CONTINUED SNOWFALL

(By The Associated Press.)
A new cold wave dug deep into the south today, inflicting widespread hardship and carrying no prospect of a let up throughout the north central states, and zero cold penetrated into extreme northern Oklahoma and along the Arkansas-Missouri boundary.

Two persons froze to death in Ohio. The relief situation was described as "pitiful" in Missouri where the wave went well below zero. Most relief offices were snowed under with requests for aid.

From Texas to Florida, southerners shivered in the continued abnormal cold. One of the heaviest frosts in years extended to Tampa, Fla., and in Miami chilled furtives from the northern cold sought blankets, firewood and heating equipment.

Only main highways in Virginia were opened as crews were hampered by a shortage of proper equipment to cope with the "once-in-20 years" snow. A 20-inch snowfall resulted in roof collapses at an armory, a tobacco warehouse and an airplane hangar. Richmond's transportation remained crippled.

The snowfall this morning covered the entire United States, except the immediate Gulf and South Atlantic coasts and most of the extreme western parts of the Pacific states.

Sub-Zero Reports
North Dakota reported warmer conditions. Bemidji, Minn., had 23 below zero, Minneapolis and St. Paul —5.

Sub-zero cold was general in Iowa. Red Oak reported an official —23. Most of Nebraska chilled with below zero cold, some as low as —14.

The mercury fell steadily in Wisconsin as the wave crept eastward. The University of Illinois fruit specialist reported the state's peach crop, a \$2,000,000 annual crop, the last three years, was "almost a total loss."

Ohio temperatures ranged from 2 below at Cincinnati to 6 above at Cleveland.

Temperatures in New York and New England were above zero. Oklahoma's 56th consecutive day of sub-freezing weather equalled the record set in 1930. Forgan had —12.

Slightly warmer weather prevailed in South Dakota, although temperatures of —10 or colder were general.

Fresh highways in Maryland, Delaware, New Jersey, Virginia and West Virginia were clogged with snow. Washington, D. C., was engaged in digging out from 11 to 12 inches of snow.

The storm missed New York City, causing some disappointment on the part of city officials worried about the dwindling water supply.

Freezing temperatures disrupted the water supply at Henderson, Ky., Morris, Okla., and other communities.

Missouri residents had to carry water from Okmulgee, Okla., seven miles distant, because a 4-inch water main froze. Part of the Guthrie, Okla., water supply was cut off when schools were closed because of the cold.

Record snowfalls disrupted traffic in much of the South.

See NATION'S COLD, Page 3

PUBLIC HEARING ON CASE STATE HOSPITAL PRESIDENT IS HELD

YOUNG WOMEN GIVE INTERESTING TESTIMONY OF ATTITUDE OF JOHNSON

AUSTIN, Jan. 25.—(P)—A pretty young nurse, Miss Ras Stockton, testified at a public hearing here today that Dr. W. J. Johnson, superintendent of the San Antonio State Hospital, frequently had spoken to her of sexual matters while she was an employee of the institution.

The hearing was before the state board of control on complaints of the San Antonio Ministers association that if evidence it had received was true the elderly hospital head was morally unfit to continue in his position.

Miss Stockton said, under questioning by Assistant Secretary of State Claude Williams, that Dr. Johnson, in his office, had asked her what she thought of sexual relations with men and had said it was a normal reaction.

"He said it was something every girl should experience," Miss Stockton testified.

"Did he tell you that if a girl did not have sexual relations she would be missing one of the most beautiful things in life?" Williams asked.

"Yes, in effect," Miss Stockton replied. Miss Stockton testified further that on numerous occasions Dr. Johnson had asked her if she "went out" with men and had told her he thought every girl should do so.

Miss Hilda Ench, another young woman who was in his office, Johnson remarked that people seldom could live long without helping each other and had asked her if she did not think her hands were "pretty nice" to her, she testified.

She said she had replied that he had and she was grateful.

MERCHANT MARINE CASUALTIES SWELLED BY NORTH SEA MINES

SEVERAL ADDITIONAL SHIPS REPORTED LOST IN UNRESTRICTED SEA WARFARE

LONDON, Jan. 25.—(P)—Mines helped swell the toll of merchant marine casualties of the war today in the North Sea while in the Mediterranean a small auxiliary vessel of the French navy was in distress from an undetermined cause.

The French ship was 622-ton. His distress call sent the Italian freighter Cellina speeding to her aid.

Victims of the war at sea in the North included:

The Norwegian steamer Bank 36 miles off the Netherlands coast after striking a mine. The Norwegian steamer Borghavn rescued 12 passengers and seven crew, but 12 other passengers and 26 members of the crew lost their lives.

The Finnish steamer Onto, 1,300 tons, was sunk Tuesday after striking a mine in the North Sea. The crew of 18 reached an English port today aboard a Greek vessel.

The Swedish steamer Patria,

AERONAUTICAL ENGINEERS HAVE INVENTED SIMPLE INSTRUMENT GIVE PILOTS ALL INFORMATION

By DEVON FRANCIS
Associated Press Aviation Editor
NEW YORK, Jan. 25.—(P)—Aeronautical engineers have invented an instrument, simpler in appearance than the face of a clock, which tells a pilot all he needs to know about where and how he is flying in even the thickest weather.

Called the "flight-ray," it borrows from television the cathode ray tube which makes the pictures in home receiving sets. Instead of pictures it draws some lines and a circle.

Preston R. Bassett, vice president and chief engineer of the Sperry Gyroscope Co., Brooklyn, N. Y., told about it today in a paper delivered before the annual meeting of the institute of the aeronautical sciences.

It looks a pilot of the necessity of looking at that horrendous arrangement of flight instruments in the cockpit of transport planes, and reduces the chances of monotony and confusion.

The "flight-ray," basically, is nothing more than the familiar end of a cathode ray tube with three lines and a circle on it instead of television pictures.

The lines tell the direction the airplane is pointed, whether it is in level flight, whether it is maintaining proper speed, and whether it is at the flight altitude selected. When the lines move, the plane is deviating from a true course.

The circle is used for instrument or blind landings. When a tiny plane painted on the end of the tube is centered in the circle, the pilot knows he is on a chain of radio signals which will bring his wheels to the surface of an airport in blinding snow, rain or fog.

That's how it works. Telling why it works is another matter. Bassett explained that the lines and the circle were created by controlling the actions of electrons inside the tube which hammer away at the same fluorescent material which produces television's pictures.

The instrument has been tested extensively at both the Indiana and Newark, N. J., airports. Pilots, Bassett reported, said it worked fine.

25 Years Ago Today
(By The Associated Press)
Jan. 25, 1915—Heavy fighting between Russians and Turks in Caucasus.

CONGRESS

(Continued From Page One)
on every state in the union that all kinds of federal aid must be conditioned on full compliance with the federal law and wholly without discrimination or inefficiency.

In Ohio, Gov. John W. Bricker declared that failure of the government to repay the money would hit at 125,000 "innocent persons who are on Ohio's pension rolls."

The argument held the house in session until dusk yesterday delaying debate on the bill appropriate.

ating \$1,032,154,612 for the treasury and postoffice departments.

The deficiency bill appropriating \$251,822,588 for emergency defense and neutrality expenses still was before the senate, where another victory for economy supporters also was in prospect.

Commissioner Praelict 4.
To the Voters of Precinct 4 of Navarro County, Texas:

I hereby announce my candidacy for election to the office of county commissioner for Precinct 4, Navarro county, and solicit the support and influence of every voter in this precinct.

I am 28 years of age and have lived five miles south of Frost all my life. I farm and raise stock. My father died when I was 16 years of age. I am married and have two children.

If elected I will see that all county road work in this precinct is fairly distributed through all parts of the precinct and will endeavor to have county taxes equalized on a fair basis. I will do my utmost to give an honest, economical administration in every way.

Respectfully,
B. L. (Beldon) ENGLISH.
(Political Advertisement.)

Married at Court House.
Lon Hubbard Vaught and Miss Virginia Maud Bracken, both of the Mildred community, were married at the court house Tuesday afternoon. The ceremony was performed by Judge A. E. Foster.

NATION'S COLD

(Continued From Page One)
Jackson, Miss., was blanketed by a 10-inch fall and the snow measured 10.3 in Atlanta.

The cold interfered seriously with shipping. Missouri river transportation was virtually paralyzed by slow moving ice floes from Memphis to Cairo, Ill. There were ice jams at Helena, Ark.

Ice conditions along the Ohio river were described as the worst in 25 years. Hundreds of barges were icebound and traffic along the 980 mile waterway was at a standstill.

Ice breakers smashed big floes in the Delaware to keep ships moving. Shipping in Chesapeake Bay was still hampered by ice. A schooner and power boat were driven on the treacherous bay ledges in Penobscot Bay, Vinalhaven, Me.

House of David to Meet Irene Quint
IRENE, Jan. 25.—(Spl.)—The House of David basketball team will meet the local independent five here Tuesday night, Jan. 30. The contest will be played at the local community building court. A large crowd is expected to attend, according to T. C. Stell, who is in charge of arrangements for this unusual contest.

Sun Want Ads Bring Results.

Angus

ANGUS, Jan. 25.—(Spl.)—The many friends of C. C. Bomer and family are very sorry to learn of the death of their wife and mother on Sunday night.

Miss Bomer was of Corsicana and spent Friday night with her grandparents, Mr. and Mrs. Tom Ware.

Tom Moffitt of Hedley visited relatives here last week.

Mr. and Mrs. J. D. Youngblood of Cayuga visited her parents, Mr. and Mrs. J. L. Caffy, Sunday afternoon.

Miss Jane Pitts of Corsicana spent the week end with her grandparents, Mr. and Mrs. D. C. Bray.

Mr. and Mrs. Paul Thompson and sons spent Sunday in Groesbeck.

Harvey Stewart has returned to Denver, Colo. where he is stationed in the army.

Miss Janet Harris of Corsicana visited friends here Tuesday.

Mr. and Mrs. Jesse Grosdier and family of New London spent the week end with her parents, Mr. and Mrs. R. F. Shaw.

Mr. and Mrs. H. H. Pugh of Dallas visited Mr. and Mrs. L. P. Tilton Saturday.

W. H. Fowler has returned from Houston where he has been in the hospital.

Rev. Mr. Hall of Baylor College preached at the Angus Baptist church Sunday.

Mr. and Mrs. L. P. Tilton and daughter, Annie Maud, visited Mr. and Mrs. Charles Pugh and family in Corsicana Sunday.

Blooming Grove

(Spl.)—Miss Letha Ingram of Gladeview was here this week end, guest of her parents, Mr. and Mrs. W. C. Ingram.

Mr. and Mrs. R. S. High went to Beaumont Tuesday to attend the funeral of her son, J. T. High.

Rev. Van P. Morrison and sons Van and Pat made a business trip to Granbury Saturday.

Mrs. A. A. Glenn returned to McAllen attending a mission conference of the Methodist church in Asheville, N. C.

Mr. and Mrs. C. W. Wiese and little son, Walter, were guests of Mrs. Ruby Hickey from Friday until Sunday.

J. B. Shaw and Miss Annie Maud Shaw of Frost visited Mrs. R. S. High Sunday.

Mrs. R. S. High of San Antonio is here at the bedside of her mother, Mrs. J. W. Crocker, who is quite ill.

Mrs. Maggie Johnson returned Friday attending a mission conference of the Methodist church in Asheville, N. C.

Mr. and Mrs. C. L. Tillman, Jr. of Abilene were visiting relatives here Sunday.

A large number of friends and relatives from Kerens attended the funeral of J. C. Tillman here Monday afternoon.

Mr. and Mrs. Howland Wiggs and son, J. T., were in Dallas on business Wednesday.

Corbet

CORBET, Jan. 25.—(Spl.)—Miss Blanche Castles, Mrs. Lick Nokes, Mrs. T. C. Baggett and Mrs. O. K. Vinson attended the Navarro County P. A. Council at Kinsloe House in Corsicana last week.

Miss Josie Sessions spent the week end in Huntsville.

Miss Pauline Henderson visited Mr. and Mrs. G. E. Nokes from Wednesday until Friday.

Mrs. E. V. Berry is recovering from an attack of pneumonia.

Mrs. J. L. Womack, Mrs. G. E. Burnett, Mrs. M. W. Long and Miss Peg Long are on the sick list.

Louise Williams spent Saturday night and Sunday with Robbie Nell Rogers.

Mr. and Mrs. Melvin Rogers spent Sunday in Corsicana with Mr. and Mrs. Ewing Patrick.

Mr. and Mrs. Carl Williams and children, Mrs. M. W. Long and Miss Peg Long are on the sick list.

A. T. Elmore and children visited in the Robert Rogers home Saturday night.

Mildred

MILDRED, Jan. 25.—(Spl.)—Students were busy taking mid-term exams Wednesday and Thursday of last week in Mildred High school.

There was no school Friday, only in the afternoon pupils went to get their report cards.

A heavy snow fell here early Monday morning.

Mrs. Prudie Wood, commercial teacher in Mildred High school, spent the week end in her home in Belton.

Atlas Ellis was on the sick list last week, but is able to be at work again in Corsicana.

Eugene Lumpkin of Waco was a Mildred visitor Saturday.

Miriam and Clarence Wright of Bryan visited Mr. and Mrs. Corbett Wright Sunday.

Virgil Wright of Arkansas is visiting Mr. and Mrs. Andrew Wright.

Mrs. R. L. Ellis has been on the sick list this week.

Sick and Convalescent.
W. H. Norwood, superintendent of the Corsicana public schools was reported to be ill with influenza Thursday.

W. V. Mowlam, city engineer, was also reported ill with influenza Thursday morning.

Mrs. Kate Davidson, 1117 West Fourteenth avenue is reported on the sick list.

Sun Want Ads Bring Results.

Richland

RICHLAND, Jan. 25.—(Spl.)—Thursday of last week was the coldest weather of the season. In fact some think it was the coldest weather in years.

The weather was very cold last week. School closed at noon Thursday due to high cold wind, then the weather was bitter cold over the week-end and Monday morning everything was covered in snow and it continued to snow until late afternoon and amounted to about five inches. The railroad watertank pipe burst, flooding the streets nearby. Cisterns froze and burst, also water pipes.

Mrs. Will Moore was in Corsicana last week.

Mrs. Henry Davis also visited in Corsicana last week. She also visited in Dallas recently.

Mrs. R. R. Fleming has been on the sick list the past week.

Rev. Clare had business in Corsicana last week.

Mrs. John C. Lansford has been on the sick list.

Mr. and Mrs. Stanley Chism had a sick baby last week.

Mr. and Mrs. Edgar Grimes had as their guest relatives of South Texas recently.

Guy Campbell slipped on the slick pavement in Corsicana Monday morning, breaking his leg. He was able to return home in the afternoon.

Rubin Griffin was the guest of home folks in Jewett Sunday. His brother, Frank, accompanied him home for the night and day, returning to his home Monday afternoon.

Several in and around Richland are on the sick list, but none are seriously ill.

Mr. and Mrs. Stanley Chism and baby were in Corsicana last week on business.

Mrs. R. R. Fleming and children attended a show in Corsicana Saturday.

Mrs. Bill Brown was confined to her bed last week.

Miss Lucile Bailey of Dallas is on the sick list and is here with her sister, Mrs. Allen Anderson.

Tuesday morning the thermometer reading was down to three degrees here.

Please Accept Our Thanks

For the many thoughts of kindness extended by friends and neighbors, who comforted us in the loss of our dear father. We appreciate the lovely flowers and the kind thoughts of all.

Mr. and Mrs. Fred Rawlinson and Family.
Miss Helen Killingsworth.
Mr. and Mrs. Ed Killingsworth.

HOSPITAL PROBE

(Continued From Page One)

Miss Stockton was first employed at the hospital for about a month beginning in October, 1938, but left because she was assigned to night duty. She returned to the employ in February, 1939, leaving again in September of that year.

Referring to the asserted question as to the "most beautiful thing in life" Miss Stockton testified that after she had informed Dr. Johnson she "didn't play that way," he told her "if you ever change your mind, let me know."

"But I always said 'no,'" the witness added.

The nurse asserted that after some time, Dr. Johnson declared "I'm getting tired of you always saying 'no,'" and that thereafter she was placed on night duty.

Way to Keep Good Jobs. "He gave me to understand," she continued, "that that was the way girls could keep good jobs there. I later resigned because I got tired. I was due a vacation and had not gotten it and I was supposed to take charge of a clinic, a job I didn't want."

On cross examination by Carl Wright Johnson, Dr. Johnson's attorney, Miss Stockton stated that 2 1/2 years after she left the hospital the first time, she was re-employed.

The witness identified letters of her own to the superintendent in which, as read by Carl Wright Johnson, she expressed gratitude to Dr.

Johnson, and called him "a Grand person."

A letter to Miss Stockton from Dr. Johnson, read by his attorney, stated:

"You (Miss Stockton) cannot dictate the terms of your work. The only way you can make good is by doing well what is assigned you. I'm trying to get you to take the proper attitude toward your work."

About July, 1939, after returning to the institution in February, Miss Stockton asserted Dr. Johnson asked her:

"I've been nice to you, don't you think it's your turn to be nice to me?"

"I answered that," the witness testified "by telling Dr. Johnson I was grateful."

"Didn't Play That Way. "Did the doctor say anything else?" the attorney pressed.

"I told him the thing he was suggesting was wrong, that I didn't play that way," she answered. "I assumed he was making improper advances towards me."

"Oh, you assumed it?" the attorney asked.

"Yes," she answered, "I assumed it from all the conversation that was going on around the hospital."

Early in the hearing, State Rep. Fred Felty of San Antonio made the statement: "It is my intention to clean out the San Antonio Hospital. In my opinion there are many gross irregularities at the institution. x x x I believe that before we ever discover the true con-

ditions down there, it will be necessary to remove Dr. Johnson."

Shortly thereafter, Carl Wright Johnson declared:

"It is Dr. Johnson's position that this board has a perfect right to conduct this investigation, but he denies that the board is possessed of any judicial power. We believe the board has a right to present its findings to a court. The charges on their face, are alleged to have been committed prior to his election to the position he holds."

DeBerry, Uninformed. Tom DeBerry, board member appointed by former Governor James V. Allred, interjected at one point, stating that he had not been informed of Assistant Secretary of State Claude Williams' connection with the investigation until he saw it in a newspaper.

Knox explained Williams had been acting "at my request."

The first reference to Dr. Johnson's treatment of the late Claude Teer, chairman of the board of control, came during cross-questioning of the 27-year-old nurse.

She said that after Felty and William Lawson, secretary of Governor O'Daniel, had visited the hospital in an unavailing effort to see Teer she "was told they had come to get Teer's resignation." She did not elaborate.

Attorney Johnson asked Miss Stockton if Felty tried to get her to make a statement that Dr. Johnson had been derelict in his duty in handling the Claude Teer case.

"He asked me my opinion on the matter but did not try to get me to make a statement," Miss Stockton said.

Carl Wright Johnson sought to show through cross-examination that the duties of all employees had been changed at the time Miss Stockton was given night work and that her assignment therefore could not have been punishment.

Before the hearing started, Williams said he "represented no

one in particular and maybe everyone in general."

"I have conducted the investigation," he said "in the interest of the facts being presented."

DeBerry said the board of control decided January 5 that no investigator would be appointed without the board's consent.

The complaint against Johnson was read by Williams before the start of testimony. It was filed by the San Antonio Ministers association, which said the charges had been heard by members of the association and should be investigated.

The complaint listed a number of alleged instances of improper advances made to women employees and applicants for employment at the hospital, largest state institution of its kind.

The hearing was in the colorful setting of the state senate chamber, scene of many important legislative investigations, and about 300 spectators, including a liberal sprinkling of women, were scattered over the main floor and through the galleries.

The elderly, nearly bald Johnson, superintendent of the huge hospital since 1926 and prominently connected with state eleemosynary institutions prior to that time, sat at a table with his counsel, Carl Wright Johnson of San Antonio.

Nearby sat Mrs. Johnson wearing a brown fur coat and black hat.

Former Governor Dan Moody, also counsel for Johnson was not present at the start of the hearing, being detained at the Travis county courthouse by a case.

Chairman Harry Knox, Jr., of the board presided and acted on each side him were Tom DeBerry and Frank Davis, board members.

At the outset Williams explained he had made an investigation at the hospital at the request of the board of control.

The statement had more than ordinary significance because it is not customary procedure for attaches of the state department to perform such investigations.

O'Daniel Not Involved. The secretary of state is an appointee of the governor. However, Governor W. Lee O'Daniel has said he had nothing to do with the investigation.

The charges included: "That early in 1939, Miss Ras Stockton, nurse in the hospital, was called to Dr. Johnson's office. In the course of the conversation she was given to understand that she would have to permit Dr. Johnson to have sexual relations with her or not be treated so nicely. Miss Stockton advised the doctor that she needed a job but not that bad."

"On or about June 22, 1938, Dr. Johnson interviewed Frances Fleming, 18, applicant for a job. Dr. Johnson asked Miss Fleming if she ever picked cotton. Miss Fleming advised him she had not. Dr. Johnson asked to see her hands. Miss Fleming held them out close to her and Dr. Johnson reached out for them, but she, having heard Dr. Johnson would 'get fresh with you' folded her arms. x x x Dr. Johnson told Miss Fleming he could tell if she had ever picked cotton another way other than looking at her hands and said 'let me see your knees.' Miss Fleming refused."

"That about December 8, 1937, Wanda Johnson, 17, applicant for a job, was interviewed by Dr. Johnson. Johnson requested her to have a seat very close to him, then he placed his hand on Miss Johnson's knee and tried to pet her."

MACKENZIE

(Continued From Page One)

self against possible conflict with Russia.

Japan has a terrific task ahead of her, involving not only the crushing of the stubborn resistance of the Chinese armies but the persuading of the peoples of the conquered sections to give co-operation.

Thus far the Chinese have done much to hamper Japan's development. They have done it simply by refusing to co-operate unless forced to do so.

Still the Japanese claim to have made progress toward restoration of trade in China.

What the end of all this will be isn't apparent. If affairs move well for Japan, Tokyo isn't likely to recede from her policy of ousting the western powers from China. Should the Chinese conquest go badly, and should trade relations with America become so as to squeeze Japan seriously then one would expect Tokyo to become decidedly more receptive to Washington's demands.

Miss Johnson moved away from him.

Tried to Pet Applicant. "That about April 12, 1939, Kathleen Taylor, applicant for a job, was interviewed by Dr. Johnson. That Dr. Johnson put his hand on her knee under her dress and started to pet her. Miss Taylor moved away from him and told him she didn't like things like that."

Dr. Johnson told Miss Taylor that all the girls he employed generally do what he wants them to.

"That about August 1, 1937, Hazel Bishop, applicant for a job, was interviewed by Dr. Johnson. While she was in the superintendent's office she was given to understand she would have to submit to Dr. Johnson's advances if she wanted a job."

"That about Aug. 10, 1938, Myrtle Mae Bishop, job applicant, was interviewed by the superintendent. Dr. Johnson had Miss Bishop sit on his lap, hugged her and asked her to kiss him."

"That Marjorie Watson, stenographer at the hospital from March 1, 1937 to Dec. 31, 1938 lived in mortal dread of Dr. Johnson for every time she had to take dictation from him he would try to hug and kiss her and would pat her on the knee. She finally resigned."

"That Ruby Benton, employed at the hospital for two years, went to Dr. Johnson's office to obtain a late pass on several occasions, and on each occasion Dr. Johnson tried to put his arm around her and made advances."

Sustain Injuries

Result of Falls

Two accidents, attributed to the ice and snow, occurred Tuesday, causing a broken arm and a broken leg.

Henry Olsen, 1411 West Park avenue, employee of the Estes

Grocery, sustained a broken left leg just above the ankle Tuesday night when his leg was pinned under him as he fell in the snow at his home. Both bones were reported broken.

Claude C. Carson, 1330 West Thirteenth avenue, fell Tuesday on the ice near the intersection of Main and Collin streets. An

X-Ray examination revealed a fractured right wrist.

Pioneer Temple Man Dies. TEMPLE, Jan. 25.—(AP)—H. K. Black, pioneer, who attended first sale of town lots here in 1881, died yesterday. He was 84.

TENANTS, LANDLORDS SHARE IN AAA FUNDS AS THEY DO IN CROP

COLLEGE STATION, Jan. 25.—(Spl.)—Under the 1940 AAA program tenant and landlord will share in AAA payments in exactly the same proportion as they share in the proceeds of the crop, the State Agricultural Conservation Committee has pointed out.

At the same time the committee informed county committees that they could refuse to allow any increase in the share of payments to landlords who rearranged their farming system in order to obtain a larger share of the AAA payments for the farm in 1940.

During the AAA regulations, the committee said: "The net payment computed for any farm for special and general crops shall be divided among the landlords, tenants and sharecroppers in the same proportion (as indicated by their average shares) that such persons are entitled, at the time of harvest, to share in the proceeds of the crop (that is, the commodity payment) of such crops on the farm in 1940."

In other words, if a farm is operated in a third-and-fourth basis with the landlord receiving one-third of the cotton and the tenant and sharecroppers receiving two-thirds of the general crops, then he will also receive one-fourth of the cotton payment and one-third of the general crop payment.

The regulation further declares: "If on any farm in 1940 any change of the arrangements which existed on the farm in 1939 is made between the landlord and the tenants or sharecroppers and such change would cause a greater proportion of the payments to be made to the landlord under the 1940 program than would have been made to him under the 1939 program with respect to the farm, the change shall not be greater than the amount that would have been paid to the landlord and operator if the arrangements which existed on the farm in 1939 had been continued, if the county committee certifies that the change is not justified and disapproves such change."

Thus, the committee said, a county committee will refuse to allow any increase in payments to a landlord who replaces a tenant with wage labor in order to obtain for himself the total AAA payments to the farm.

PRECAUTIONS MUST BE TAKEN AGAINST ENCEPHALOMYELITIS

COLLEGE STATION, Jan. 25.—(Spl.)—About a year ago it looked like encephalomyelitis, or equine sleeping sickness, was going to kill off a goodly part of the horses and mules in the United States, but apparently the disease is somewhat under control now.

At least, there were 184,922 cases of the disease in 1938 and only 7,869 in 1939. That is the report made by Dr. H. W. Henshaw, chief of the USDA's Bureau of Animal Industry's pathological division, during a recent meeting of the American Horse and Mule Association.

Remarkable embryo vaccine produced remarkable results, and more 2,000,000 horses and mules were vaccinated in 1939. Immunity after vaccination usually lasts for about a year.

In spite of the marked decrease in number of cases in 1939 as compared with 1938, precautions against the disease should not be relaxed in 1940, A. L. Smith, animal husbandry specialist, Texas A. and M. Extension Service, has pointed out.

Such precautions include vaccination and consultation with a qualified veterinarian, he said. Since most cases of the disease occur in the spring and early summer, valuable animals should be vaccinated in April or May.

Blooming Grove Boy On Scholarship Honor Roll at Texas A. & M.

BLOOMING GROVE, Jan. 25.—(Spl.)—The 1940 membership of the Scholarship Honor Society composed of A. and M.'s scholastically outstanding students, was released by Dr. W. S. Henshaw, president of the society, this week. Composed of 119 members out of a student body of more than 6,000, the select group includes a name of J. R. Griffin, senior in science at the college of Blooming Grove. The manner of selecting members provides that the top eight per cent of the seniors in each school and the top per cent of the juniors become members in the society if they have no P's the percentage requirements being based on the number of grade points.

TAYLOR'S MAGNETO HOUSE

Be Quick To Treat Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Even if other medicines have failed you may get relief now with Creomulsion. Chronic bronchitis can develop if your chest cold is not treated as you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to take it the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. See that the name Creomulsion is on the bottle and you will get the genuine product and the relief you want. (Adv.)

HEALTH, BEAUTY AND POISE

By VERONICA DENGEL

FROM THE MAIL BAG.

E. R. writes: Would you please let me know what I can use for freckles on hands which will not in any way injure the skin, as my skin is very sensitive?

Lemon juice has a bleaching effect, and there are several freckle removers preparations on the market; but because these must be used rather strongly to be effective, I should use a lubricating, softening oil to keep the skin from becoming too dry and irritated. I do not believe skin on the hands would be as sensitive as that on the face, however; and it might be worth your while to try such a preparation. In the future, do be careful to

wear gloves when in the open, or at least use some skin protective product.

L. C. writes: I am anemic, and would like to know if you have a diet list that would be beneficial to me. I have never been ill, except a cold now and then. I am 38 years old, mother of three children, the youngest 16 years old. Have had thorough examination including X-rays and blood tests, but found nothing else wrong. I work nine hours a day in a factory, but don't sleep well at all. I am sorry that I could not possibly give you a diet list for a specific condition. This is entirely out of my province, and a matter for your doctor only. Surely he must have told you what to eat when he made his diagnosis. Perhaps a warm bath, and a glass of hot grapefruit juice before retiring would be helpful in getting

News County Home Demonstration Clubs

Jones Ranch Club.

The food standard for a safe diet should always be in the minds of every homemaker of Texas. Miss Clara Rittiger, Navarro County Home demonstration agent, told members of the Jones Ranch, Home demonstration club, in the home of Mrs. A. F. Allen, January 17.

According to Miss Rittiger, each individual needs daily 1 quart milk, 1 egg, 1 serving meat, 1 serving potatoes, 1 serving green or yellow vegetables, 1 serving citrus or tomatoes, 1 serving fruits, 1 serving whole green products, bread and butter at every meal, some sweets, dried beans and peas 2 times a week, 6 and 8 glasses of water. Average serving about 1-2 cup.

New members at this meeting were: Mrs. Earl Dawson and Mrs. Dudley Robinson.

Visitors were Mrs. M. G. Blankenship, Mrs. E. J. Hightower, Mrs. John Johnson and Mrs. Carl Brown. Fifteen members were present.

Reporter, Ona Bell Romage, Frost, Texas.

MILLIONS TONS OF FEED STORED TRENCH SILOS STATE TEXAS

COLLEGE STATION, Jan. 25.—(Spl.)—Texas farmers and ranchmen stored 3,446,591 tons of feed in 28,831 trench silos in 1939. This represents an increase of 1,629,963 tons and 11,783 trenches over 1938 totals, according to E. R. Eudaly, dairyman of the Texas A. and M. extension service.

The trench silo figures are getting so big that we need some sort of comparison to grasp them," Eudaly pointed out. "For instance, if all the silage put in trench silos in 1939 were put into one trench 12 feet wide and six feet deep, it would reach from Corpus Christi to Ardmore, Okla."

More significant was his statement that enough feed had been

placed underground to feed Texas 1,400,000 dairy cows for 125 days.

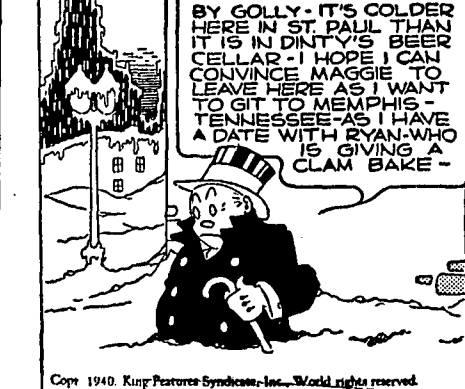

The increase in the number of trench silos and in the volume of silage stored is surprising in view of the wide-spread drought of the past year. The dairy specialist, however, said that many farmers and ranchmen had put otherwise worthless drought-stunted crops into trenches. Such feed makes fair silage.

The outstanding development of the 1939 trench silo year was the large amount of threshed grain stored in trenches. Many county agricultural agents took occasion to remark that the trench silo afforded the only way to prevent weevil losses.

W. C. MCGLOTHLIN
DISTRICT CHAIRMAN
FOR BOY SCOUTS

W. C. McGlothlin, local chairman for Navarro County, was named district chairman for the twenty-fifth annual Boy Scout Circle Ten Council meeting at Dallas Wednesday night. The annual meeting was held at the Dallas Athletic Club with Arthur A. Schuck of New York, National director of operations, making the principal address. In his talk, Schuck pictured the Boy Scout organization as the best equipped for training the youth of the land for the job of preserving democracy in this country. At a meeting of the executive board, which preceded the council's session, Milton Brown, Dallas banker, was elected president of the council to succeed L. B. Denning, Denning, who was unable to attend, was elected president-emeritus. He recently asked to be relieved from his position because of ill health. Other officers elected were

Additional AAA
Compliance Checks

Payments to Navarro County farmers for compliance with the 1939 conservation program of the government reached a total of \$536,306.48 Thursday morning at the county AAA offices with the receipt of 173 checks, amounting to \$11,350.20.

FORMER CORSICANAN
DIED IN KINGSVILLE
FROM HEART ATTACK

A message was received Wednesday by Mrs. O. P. Lowry and Mrs. Marion Martin informing them that their brother, Harry Scott, who resides in Kingsville, had just died as the result of a heart attack. Mr. Scott, a former resident of Corsicana, had suffered a heart attack last year but had apparently recovered. Mrs. Martin, accompanied by her brother, John Scott of Wortham, left Wednesday for Kingsville. Mrs. Lowry was unable to go. Funeral arrangements had not been learned at noon Thursday.

Ben R. Newbery, commissioner; John R. Haven, treasurer, and John W. Carpenter, C. F. O'Donnell, Eugene McElhenny, Frank V. Faulkner, Fred F. Florence, T. E. Craig of McKinney and Archie Wood of Athens, vice presidents.

Courthouse News

District Court.
The State was still introducing testimony Thursday morning in the trial of Willie Scourton, Henderson county negro, on a murder indictment in connection with the death of Mrs. Crump Huff of Longview, July 16, 1939, as the result of an automobile collision on Highway 31 east of Corsicana. All day Wednesday was used for testimony. Court attaches reported the defendant had summoned numerous witnesses in the case.

District Clerk's Office.
The following cases were filed: Lena Mae Overton, administratrix of the estate of A. J. Overton, deceased, and individually, vs. Clara May Crowley, et al, suit on note and foreclosure. Re: Estate of Simon Daniels, deceased, consist of will. Carlie Prince vs. Ollie Prince, divorce. Lucille Kerr vs. Hamilton Kerr, divorce.

Assessor and Collector's Office.
There had been 3,861 poll tax receipts issued in the assessor and collector's office Thursday morning. With only one week remaining in which to get the receipts, notices expect a big rush if the weather conditions improve, but many observers are predicting there will be considerably less paid than in previous election years, due in part to the recent ruling that a person must pay the poll tax in person or by an agent-in-fact designated on or before October 1, in Corsicana, and also to the ruling that everyone voting in an incorporated town or city must not only have a county poll tax receipt but also a city poll tax where voting.

Marriage License.
Lon Hubbard Vaught and Miss Virginia Maud Bracken. H. C. Williams and Ludie Ross.

Warranty Deed.
Henry F. Clements et ux to C. G. Barnhart, lot 5 and 1-2 lot 4, block 31-B, Corsicana, \$2,500. W. D. Magness et al, to R. H. Magness, 12 acres of the R. B. Longbottom league in Freestone county, \$10 and other considerations. Mrs. Mollie Magness, et al, to J. H. Magness, Lot 5 and South 1/4 of Lot 6, and Lot 4 and 15 feet off Lot 3, Block 36, Wortham, \$10 and other considerations. Jack H. Thompson, et ux, to Martha Rea, Lot 1, Block 553, Corsicana, \$2750. W. B. Middlebrooks, et al, to J. B. Horn, et ux, 40 feet off the north end of Lot 12, Block 45, Navarro, \$25 and other considerations.

Sheriff's Office.
A negro was arrested on an aggravated charge in connection with the alleged severe beating of his wife. A Mexican was arrested Wednesday by Deputy Sheriff George T. Brown on a capias from the Richland justice court.

House Burns Wit' Loss Estimated At Approximately \$500
Damage in excess of \$500 was reported in three blazes in Corsicana Wednesday and Thursday by fire department officials. The first alarm was received at 11:40 Wednesday morning and about \$25 loss from destruction of a washhouse. A house owned by Miss Frankie Freedman and occupied by Jesse Wells at 704 East Thirtieth avenue was destroyed about 2 p. m. with loss estimated at \$500. A cistern platform ignited in an attempt to thaw frozen pipes at 1218 West Collin street caused a slight damage about 2:45 p. m.

FUGITIVES

(Continued From Page One)
Mann was convicted of murder at Morton and Nelson was under sentence from Abilene as a habitual criminal. Cash was convicted in Dallas county of slaying a Brooklyn salesman. It was his third escape. The three were being transferred to the state penitentiary when they slugged Prison Agent W. R. Crane and escaped in a stolen automobile at Buffalo in Central Texas. The gun found on Nelson was the one taken from Crane, he said. Along with Webb and Ratliff in the posse were State Highwaymen John White and R. Ragsdale, Deputy Sheriff Punk Burns, W. R. Barfield and Claude Heron, and others. Following the escape hundreds of officers participated in a statewide search for the trio, centering in West Texas. They were reported as having engaged officers in numerous gunfights as they fled, and with stealing several automobiles. Officers several times closed in on at least two of the three. Most recently, two men believed to be the desperadoes engaged Night Watchman Bill Pinkston of Stanton in a gun battle. Pinkston said he thought the men were Nelson and Mann. Pinkston shot at a motorist he took to be Mann after encountering the two at a cafe. In the exchange of shots, a bullet clipped through Pinkston's coat sleeve, but he was not injured. At that time, the pair fled in a 1935 grey Chevrolet, but they had been reported as having used a number of stolen cars in their headlong dash through Texas.

LOCAL WEATHER

(Continued From Page One)
Sections of the city for a week and those that have been thawed out and repaired are in danger of being frozen again. Plumbers of the city are going at top speed to give temporary relief from the water shortage. Few Accidents. Physiatrists report there has been a minimum of patients treated for falls or broken arms and legs. No serious automobile accidents have been reported to officers. One physician stated he had treated two patients for frostbite. A white boy residing in the rural sections has been treated for frost-bitten ears, while a negro youth has been seen with frozen toes. Pete O'Daniel, filling station operator, reported Wednesday morning that a customer drove into his station Tuesday with a starting sitting on the spare tire. An attendant picked the bird off the car and found it dead, frozen to the spare tire. Several persons have reported finding dead birds about their premises, apparently having frozen to death. The snow covering the ground has made it difficult for the birds and other wildlife to secure food during the blizzard.
